

27th - 31th January 2025

Mušov, Pasohlávky (South Moravia), Czechia

January	Time	End Programme	Speaker	Title
27	17:00	21:00		Registration
27	19:00	22:00		Dinner +Ice-breking Evening
28	7:00	9:00		Breakfast
28	8:00	9:00		Registration
28	9:00	9:15		Opening
28	9:15	10:15	Joshua Dooley	Status and trends of geese in North America
28	10:15	10:30	Peter Prokosch	Where Goose Research has led to Conservation-Success Storie – Examples from the East Atlantic Flyway
28	10:30	11:00		Coffee Break
28	11:00	11:15	Ian Francis	The recent rise and fall of the Greenland White-fronted Goose <i>Anser albifrons flavirostris</i> : a precarious population wintering on the Celtic fringe of Europe
28	11:15	11:30	Marco Zenatello	The rise and fall of wintering White-fronted <i>Anser albifrons</i> and Tundra Bean <i>Anser serrirostris rossicus</i> geese in Italy
28	11:30	11:45	Mihail Iliiev	Wintering geese of northwestern Black Sea coasts: results of coordinated monitoring 2017-2022
28	11:45	12:00	Julia Loshchagina	Barnacle Goose <i>Branta leucopsis</i> colony in the Peschanka River delta on Kolguev Island: are the numbers still growing?
28	12:00	12:15	Barwolt Ebbinge	Population dynamics Dark-bellied Brent Geese <i>Branta b. bernicla</i> 1960-2020
28	12:15	12:30	Bernhard Seliger	Geese and the Central Asian Flyway
28	12:30	14:00		Lunch
28	14:00	14:15	Antra Stīpniece	Marking Greylag Goose <i>Anser anser</i> with colour neckbands in Latvia – initial results
28	14:15	14:30	Andy Green	Greylag Geese <i>Anser anser</i> wintering in the Guadalquivir Marshes (Doñana) – why is the population in rapid decline, and what are the implications for plant communities?
28	14:30	14:45	Yusuke Sawa	Population status and tracking result of Lesser White-fronted Goose <i>Anser erythropus</i> wintering in Japan
28	14:45	15:00	Kees Koffijberg	Apparent survival, productivity and future prospects for the Swedish Lesser White-fronted Goose <i>Anser erythropus</i>
28	15:00	16:15		Coffee Break + Poster Session
28	16:00	16:30	Andrea Kölzsch	Effects of disturbance on geese and how families cope - results from GPS tracking
28	16:15	16:45	Olga Babkina	The impact of neckbands on the behaviour and mating status in Greater White-fronted Geese <i>Anser albifrons</i>
28	16:30	17:00	Ingunn Tombre	Parental behaviour in autumn-staging Pink-footed Geese <i>Branta brachyrhynchus</i>
28	16:45	17:15	Henk van der Jeugd	Studying vocal communication in Barnacle Geese <i>Branta leucopsis</i> using audio-loggers
28	17:00	17:45	Petr Musil	Geese in Czechia: From flooded riparian forest to man-made waterbodies
28	17:45	18:00	Gašpar Čamlík	Wintering geese in Nové Mlýny Water Reservoir (South Moravia, Czechia) in 2007/08 - 2023/24
28	18:00	18:15	David Horal	Tree nesting of Greylag Geese <i>Anser anser</i> in South Moravia, Czechia
28	19:00	22:00		Dinner

The 21th Goose Specialis Group Meeting
27th - 31th January 2025
Mušov, Pasohlávky (South Moravia), Czechia

January	Start	End	Programme	Speaker	Title
29	6:30	9:00	Sun-rise Excursion		
29	9:00	10:00	Breakfast		
29	10:00	11:00	Plenary No. 2	Johanna Honka	Using genetic methods to study goose populations
29	11:00	11:30	Genetics and dispersal	Adjan de Jong	Single Nucleotide Polymorphic panel for genetic subspecies identification of Bean Geese <i>Anser fabalis</i> occurring in Europe
29	11:15	11:45	Genetics and dispersal	Lisenka de Vries	Long-distance dispersal is asymmetrical with respect to age, sex and breeding latitude in a long-lived monogamous bird
29	11:45	13:00	Lunch		
29	13:00	17:00	Afternoon excursion		
29	17:00	22:00	Vine Testing and Conference Dinner		
30	7:00	9:00	Breakfast		
30	9:00	10:00	Plenary No. 3	Anthony Fox	Cold Realities: Exploring the ecological consequences of global warming on Arctic goose populations
30	10:00	10:15	Management	Kevin Clausen	Shades of grey – an overview of numbers, migration, harvest and agricultural conflict potential of Greylag Geese in Denmark across the annual cycle
30	10:15	10:30	Management	Lisa Vergin	The role of winter cereals as cold-weather refuge for Taiga Bean Geese <i>Anser fabalis fabalis</i> wintering in Denmark
30	10:30	11:00	Coffee Break		
30	11:00	11:15	Management	Nelleke Buitendijk	The relationship between yield loss and the timing and intensity of goose grazing: a synthesis of multiple enclosure studies
30	11:15	11:30	Management	Bart Nolet	A multi-species spatial resource depletion model for geese to predict yield loss at first harvest
30	11:30	11:45	Management	Maarten Loonen	Vegetation change in the Arctic caused by grazing Barnacle Geese <i>Branta leucopsis</i>
30	11:45	12:00	Management	Oskars Keišs	Habitat selection by geese on stopover sites in Latvia
30	12:00	12:15	Management	Iben Hove Sørensen	Update from the AEWA European Goose Management Platform
30	12:15	14:00	Lunch		
30	14:00	15:00	Workshops		<i>to be announced</i>
30	15:00	15:15	Management	Joshua Dooley	Cooperative goose management in North America: an overview of the Flyway Councils, North America Waterfowl Management Plan, and Arctic Goose Joint Venture
30	15:15	15:30	Management	Sofia Vroege-Kolkman	FaunaSpot: an application to verifiably register derogation shooting events
30	15:30	15:45	Management	Johan Månsson	Numerical and individual responses of GPS-tagged geese scared off crops
30	15:45	16:00	Management	Nelleke Buitendijk	Limiting scaring activities reduces economic costs associated with foraging Barnacle Geese <i>Branta leucopsis</i> : results from an individual-based model
30	16:00	17:00	Coffee Break + Poster Session		
30	17:15	17:30	Management	Sander Moonen	Crippling rates of waterfowl by gunshot in Northwestern Europe: interspecific and geographic differences give clues to possible management challenges and options
30	17:30	17:45	Management/Behaviour	Friederike Woog	Behavioural ecology of geese in the city
30	19:00	20:30	Dinner		
30	20:30	21:00	Evening presentation	Petr Glazov	Long-term monitoring of goose populations on Kolguev Island in the Barents Sea

The 21th Goose Specialis Group Meeting

27th - 31th January 2025

Mušov, Pasohlávky (South Moravia), Czechia

January	Start	End	Programme	Speaker	Title
31	7:00	9:00	Breakfast		
31	9:00	9:15	Migration	Hans Linssen	Scope for Arctic migrants to speed up migration in the face of climate warming
31	9:15	9:30	Migration	Thomas Lameris	Birds advance spring arrival and egg-laying in the Arctic by faster migrations
31	9:30	9:45	Migration	Preben Clausen	Along new routes on earlier days: spring migration of East Atlantic Light-bellied Brent Geese <i>Branta bernicla hrota</i> revisited
31	9:45	10:15	Migration	Łukasz Jankowiak	From grass to grain: Geese achieve higher food intake rates on cereals than grassland in Northeastern Poland
31	10:00	10:30	Migration	Michał Polakowski	Spring goose stopover ecology at their important spring staging site at the Biebrza Basin, Poland
31	10:15	11:00	Coffee Break		
31	10:45	11:15	Migration	Elmira Zaynagutdinova	Effects of Spring Hunting in Russia on Migration Strategies of Greater White-Fronted Geese <i>Anser albifrons</i> : Insights from GPS Tracking
31	11:00	11:30	Migration	Nicky Petkov	Tracking the migration of Red-breasted Goose <i>Branta ruficollis</i> along its flyway
31	11:15	11:45	Migration	Thomas Heinicke	Unravelling the annual life cycle of an endangered goose population: Western Taiga Bean Geese <i>Anser fabalis fabalis</i> (population E1)
31	11:30	12:00	Migration	Ádám Lovas-Kiss	Making the jump, migratory geese allow plants to disperse to cooler latitudes
31	11:45		Closing		
31	12:00	13:30	Lunch
